### Bachelors of Science Computer Science

INDIANA UNIVERSITY NORTHWEST  
CHICAGO, IL  
MAY 2005 - MAY 2010

## OTHER INTERESTS

Creating Music: Drums, Guitar  
Sports & fitness: Soccer, Table Tennis

## PROFILE

I am a full-stack web developer with a background in graphic design and an emphasis on front-end web development. I find pleasure in creating work that is visually appealing, as well as solving puzzles and understanding how things work and how they are put together. With this skill combination I am able to build applications that will not only look professional but will most importantly provide an efficient solution to the user's needs.

## EXPERIENCE

### WEB DEVELOPMENT IMMERSIVE COURSE

GENERAL ASSEMBLY | JUNE 2017 - AUGUST 2017  
CHICAGO, IL

Full-time 13-Week Web Development program focused on full-stack web development. Learned to create back-end and front-end applications using modern programming languages and MVC frameworks, web APIs, deployment to cloud services such as Heroku and MLab, and collaboration using Git & GitHub.

### PROJECTS ([view my GitHub](#))

- [Gear Share](#) - Full-stack app that allows musicians to rent out their musical equipment to other musicians in need. Built using AngularJS, Ruby Sinatra & PostgreSQL
- [WeatherReady](#) - Full-stack app that recommends outfits based on the weather conditions. Built using HTML, CSS, JavaScript/JQuery, NodeJS, ExpressJS, MongoDB & OpenWeatherMap API
- [3-Card Monte](#) - Interactive 1-player card game built using HTML, CSS, JavaScript and Adobe Illustrator

### SR. GRAPHIC DESIGNER

QUALITY IMPRESSIONS | AUGUST 2013 - AUGUST 2016  
PRINT & DESIGN

- Worked with a junior graphic designer and print production to produce creative concepts and design projects for web and print
- Worked closely with clients on print and design projects and provided customer service

### GRAPHIC DESIGNER/OFFICE ADMIN.

RCCG HOUSEHOLD OF FAITH | JUNE 2011 - SEPTEMBER 2013

- Managed print and web design projects for events, publicity and in-house design
- Worked with stakeholders to coordinate and assist with event planning
- Created operational models, templates and workflows to make operations more efficient using spreadsheets and design software
